- Conducted workload task creation using Jira to track development processes and improve products.
- Implemented Test Driven Design with Mocha/Chai which helped in speeding up development time by 80%.
- Introduced consistent code review which improved system efficiency to about 95%.

SKILLS

- Node (Express.js, NestJS, and AdonisJS).
- MongoDB
- SQL
- PostgreSQL
- Sequelize ORM
- Database Migrations
- Test Driven Development
- Mochai / Chai / Jest / Jasmine / Cypress
- Microservices
- JavaScript (Vanilla)
- JQuery
- Frontend JavaScript programming (React / React Native / Vue / Next)
- TypeScript
- Flutter
- HTML expertise
- CSS proficiency (Vanilla/Bootstrap/ Tailwind CSS/SCSS)
- Material UI
- Antd
- Chakra–UI
- GraphQL
- Git
- Jira
- Agile
- AWS
- Docker
- CI/CD
- CircleCI
- Terraform
- Agile
- Documentation
- Database Architecture and Design
- Firebase

- Developed image identification and recognition microservice algorithm functionality to help prevent irrelevant profile image upload which had an efficiency of 94%.
- Contributed ideas and suggestions in team meetings, and delivered updates on deadlines, this increased company client retention from 30% to 90%.
- Contributed 50% of requirements gathering to solidify prerequisites and determine the best technical solution to meet project needs.

Node / React / React Native — Lead *Software Developer*

Oct 2021 - Feb 2022

Carrotsuite (Lagos Nigeria)

- Built a SaaS web and mobile app which addressed issues of poor visitor and staff management in an organization.
- Led a team of 4 that built 3 bespoke eCommerce solutions that cut across multiple industries, such as building, construction, and art.
- Mentored colleagues to develop their technical skills alongside soft skills which enhanced company productivity by 90%.
- Wrote both the project server-side and client-side code using ExpressJs, React.Js for the user interface, and HTML, CSS, and JavaScript for the admin interface.
- Implemented a Real-time notification functionality leveraging socket.io.
- Developed lots of features in an agile environment using Node.
- Created Data Import tools leveraging active record import.

Node / React Native / Flutter— *Software Developer (Remote)*

Mar 2021 - Oct 2021
